- What a delight!! Sam and Luci created magic and miracles - and we came along for the ride!! I grew up in a very musical family - and this weekend reminded me once again of how sound and music create beauty and joy in my soul. YES! YES! YES! - **Julie**

- What a totally amazing weekend! I am still vibrating with the joy of my experience. I loved the feeling of our group becoming one, joining together in love, joy, sharing and creativity. I loved remembering to treat my every moment with reverence - every little thing! As someone who has always been afraid to use my voice, this experience opened my heart, allowed me to let go of fear and especially reminded me to do things I love. In describing my experience, I would tell friends that if they want to feel that they can be more than they ever imagined, they should immerse themselves in this beautiful experience of music, sharing, healing and community and they will find their joy! - **June**

- I loved how Sam and Luci created a sacred space for all of us to enjoy and experience! Very gratifying group activities allowed us the opportunity to get to know one another by getting us out of our comfort zones to share meaningful life experiences, knowing each of us was supported by one another. Co-creating a song was a spiritual awakening! Phenomenal Experience to share thoughts, feelings and ideas, arranging them into lyrics with musical accompaniment! The ceremonial, instrumental and vocal vibrations, set the tone for our departure. This gave me the feeling of being continually connected to everyone. The Spark Music Retreat will unleash your creative spirit, allowing you to get in touch with your inner voice and share in the process of co-creating a song with an inspiring message that will change your life and the lives of others. This joyful event for me was Life Changing. - **Cecily**

My heart expanded and I grew wings I didn't realize were waiting to be unfurled! You are doing what you are meant to do, and those of us who took part in this Spark Retreat, sharing divine connectedness, are so blessed by you and your beautiful Spirit. Thanks so much! Still basking in the joy! - **Debbi**
- This weekend retreat refueled me. The music gave me a total healing and realigned my chakras. Luci and Sam made the space for the retreat very comfortable and I felt safe on many levels to do the inner work I needed for total transformation. Through opening up to other people in the group it built community and connection. Through meditation we were

grounded and aligned with nature. We explored movement, yoga and dance to move the energy around. Through music baths I was taken on a journey of my own creative thoughts and imagery of which I will be using in my next paintings. I haven't been to such an amazing workshop since the 80s and 90s. Thank you so much, and I look forward to more! - **Jeneieve**

- I loved the sense of balance amongst all the souls in the room. We were there to improve something about ourselves. Each to their own desire and degree of sharing. It worked. - **Jim**
- The Spark Music Retreat was a wonderful combination of deepening our experience with ourselves, and creating a deeper resonance in our beings and voices. Though it could be understood at first glance as primarily a musical endeavor, in actuality it went far beyond that. Through guided meditation, movement, sound baths and other means, it worked with each person's world and evoked the possibility of a more profound understanding and expression therein. The retreat also exemplified the power of community and the wondrous creativity that can emerge from this power. The song sung at the grand finale of the retreat was filled with the sweetness and depth of our experience together; a gorgeous and love-filled sound indeed! - **Annie**
